The Department of Aging and Adult Services
and The SCAN Foundation

Caregiving/Aging Statistics – did you know?

- California's older adult and disabled population is projected to diversify and grow faster than any other age group.
- In the next 10 years, **over one quarter of Californians** (or roughly 10.8 million individuals) **will be 60 years of age or older.**
- By 2030, it's estimated that California will be grappling with a **3.5 million caregiver shortage.**
- The Master Plan for Aging cites challenges with income (roughly one quarter of direct care workers earn less than half of California's median annual income, and **one quarter fall below the federal poverty line**), stress, and an elevated risk of job-related injury.
- The current pay rate in CA for IHSS providers is \$14 per hour and on January 1, 2022 the rate will increase to \$15 per hour. In Santa Clara County, an IHSS independent provider (IP) currently earns **\$15.62 per hour**. A living wage is \$24/hr.
- The In-Home Supportive Services (**IHSS**) program of the California Department of Social Services (Social Services) **provides care to more than 591,000 lower-income elderly or disabled Californians** (recipients), helping them to live independently in their homes.
- In 2019, more than **40,000 recipients on average did not receive needed in-home care each month**, and that number is likely to grow. This equates to more than 130 million hours of services IHSS recipients needed but did not receive.

Housing/Aging Statistics – did you know?

- By 2030, **10.8 million Californians will be an older adult**, making up one-quarter of the state's population. Santa Clara County will see a **203% increase** in residents aged 60 and over by 2060.
- CA only has **24 units** of housing that are affordable and available **for every 100 extremely low-income residents**.
- While most older Californians are homeowners, older adults who rent homes (25% in SCC) are facing rising affordability challenges.
- Less than 1/3 elder renters age 60+ receive financial assistance.
- A vast majority of adults **prefer to age in place in their homes** and communities.
- **40% had never been homeless before the age of 50**; 50% have two or more impairments in ADLs or IADLs; 30% have cognitive impairments.
- **80%** of aged homeless have caregiver needs, but **no access to caregivers** (structural barriers to IHSS - not available to homeless).
- Homelessness is also a racial justice issue: historical segregation, redlining and predatory lending; **6.5% of Californians are Black, but 30% of California's homeless pop is Black**.

Master Plan for Aging

FIVE BOLD GOALS FOR 2030

Amanda Lawrence, MPH
Master Plan for Aging Project Director
California Department of Aging

JANUARY 2021

Master Plan FOR AGING

Master Plan for Aging

Master Plan for Aging

The Master Plan on Aging: Five Bold Goals for 2030

The Master Plan for Aging presents a comprehensive approach for every Californian to help build a California for All Ages by 2030. The Plan identifies five bold goals and twenty-three innovative and flexible strategies for state and local leaders in government, business, philanthropic, and community-based organizations to collaborate. Each of these goals is in alignment with Governor Gavin Newsom's California for All vision.

Beginning in 2021, the five bold goals will be powered by over 100 action-ready initiatives in the short term that have already been adopted by state agencies for implementation, in partnership with stakeholders and the Legislature. (See page 22 for a detailed list of these proposals.) These initiatives will be continually informed by the publicly accessible, user-friendly, and routinely updated Data Dashboard for Aging, which will track the Master Plan's targets over ten years. Progress, updates, and new initiatives will be addressed in an annual report produced by the Administration.

10 It also includes a Data and Playbook to drive goals together.

Master Plan for Aging

Master Plan for Aging

experienced unprecedented death rates – particularly among Latino, Black and Asian Pacific Islander communities and those living in nursing homes. Intertwined social isolation and ageism have been especially burdensome. The suffering, resilience, and leadership of older adults, people with disabilities, caregivers, service providers, and advocates during this time have made the Governor's Master Plan for Aging even more urgent. This is not a plan simply for today's older adults. Instead, the Master Plan is a blueprint for aging across the lifespan. The Master Plan calls on all California communities to build a California for All Ages for older Californians currently living through many different stages of the second half of life, for younger generations who can expect to longer lives than their elders, for communities of all ages – family, friends, neighbors, coworkers, caregivers – surrounding older adults. As we age, we can create communities where all ages and abilities are engaged, and a shared equitable opportunities to live well, how and where we choose.

4

Master Plan for Aging: Five Bold Goals for 2030

The MPA is for people of all ages who are family, friends, neighbors, coworkers, and caregivers of older adults.

**Goal 1:
Housing for All Ages
and Stages**

**Goal 2:
Health Reimagined**

**Goal 3:
Inclusion and Equity,
Not Isolation**

**Goal 4:
Caregiving that Works**

**Goal 5:
Affording Aging**

Master Plan for Aging: Five Bold Goals for 2030

GOAL ONE: Housing for All Ages & Stages

We will live where we choose as we age in communities that are age-, disability-, and dementia-friendly and climate- and disaster-ready.

TARGET: Millions of New Housing Options

LOCAL MODEL: [Age Well San Diego](#)

STRATEGIES:

- A. More Housing Options
- B. Transportation Beyond Cars
- C. Outdoor & Community Spaces for All Ages
- D. Emergency Preparedness & Response
- E. Climate-Friendly Aging

Master Plan for Aging: Five Bold Goals for 2030

GOAL TWO: Health Reimagined

We will have access to the services we need to live at home in our communities and to optimize our health and quality of life.

TARGET: Close the Equity Gap In & Increase Life Expectancy

LOCAL MODELS: [Partners in Care Foundation](#), [Inland Empire Health Plan](#)

STRATEGIES:

- A. Bridging Health Care with Home
- B. Health Care as We Age
- C. Lifelong Healthy Aging
- D. Geriatric Care Expansion
- E. Dementia in Focus
- F. Nursing Home Innovation

Master Plan for Aging: Five Bold Goals for 2030

GOAL THREE: Inclusion & Equity, Not Isolation

We will have lifelong opportunities for work, volunteering, engagement, and leadership and will be protected from isolation, discrimination, abuse, neglect, and exploitation.

TARGET: Keep Increasing Life Satisfaction as We Age

LOCAL MODEL: Purposeful Aging Los Angeles

STRATEGIES:

- A. Inclusion and Equity in Aging
- B. Closing the Digital Divide
- C. Opportunities to Work
- D. Opportunities to Volunteer and Engage Across Generations
- E. Protection from Abuse, Neglect & Exploitation.
- F. California Leadership in Aging

Master Plan for Aging: Five Bold Goals for 2030

GOAL FOUR: Caregiving That Works

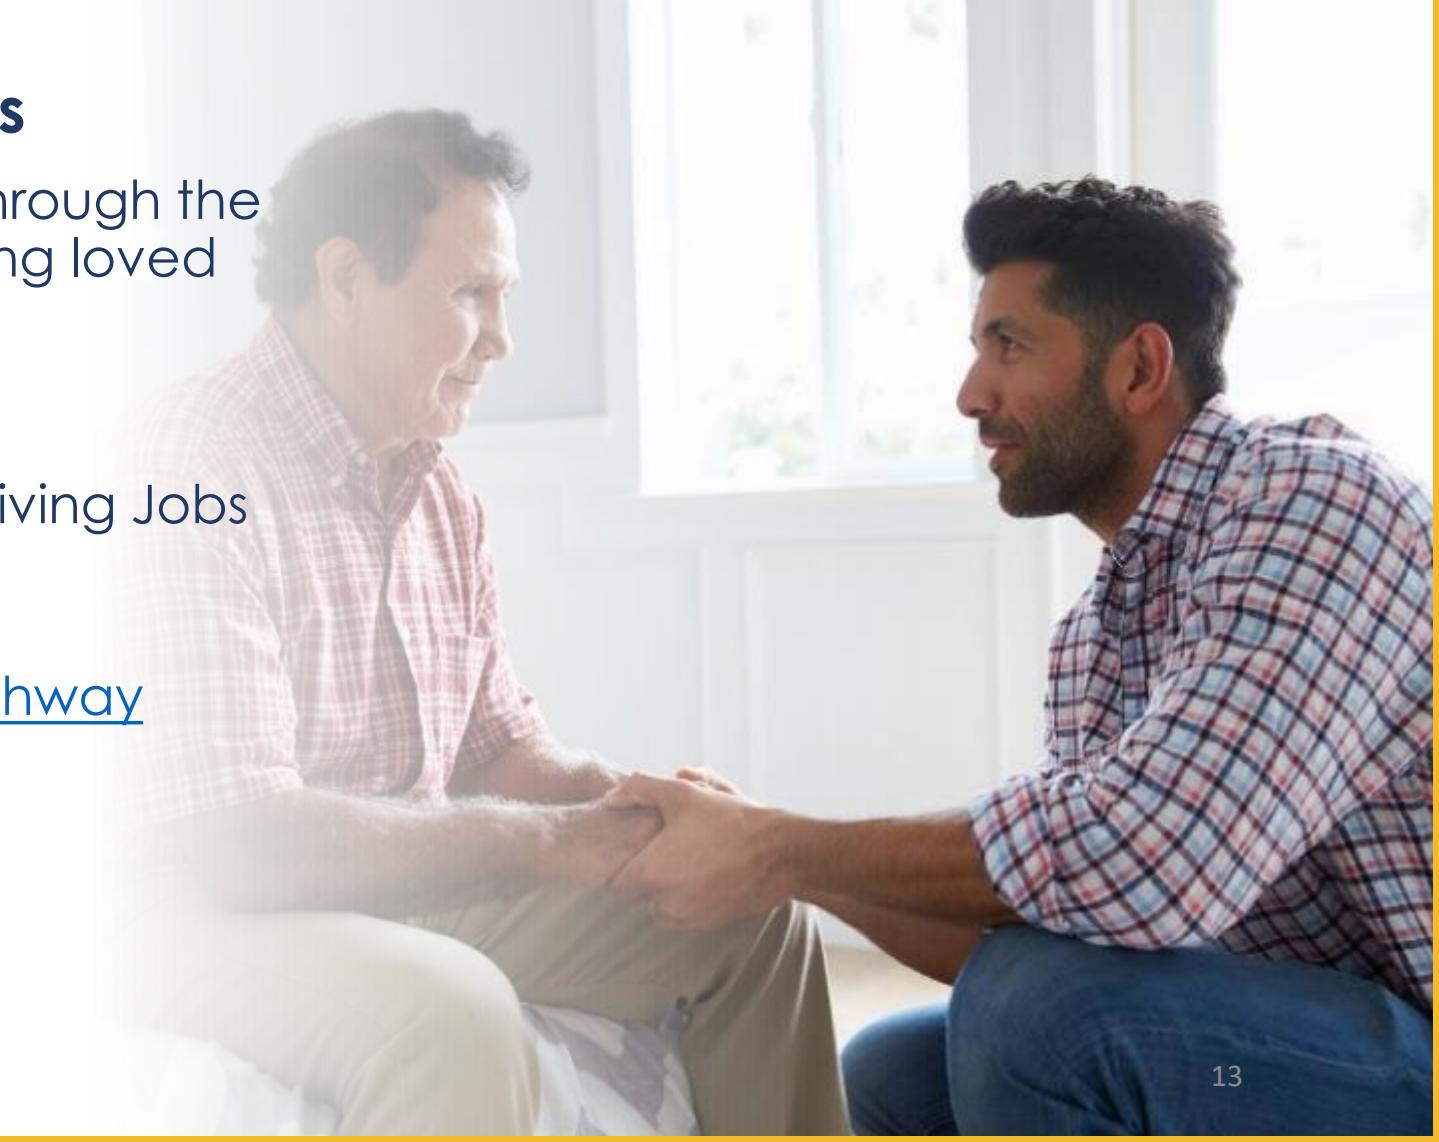

We will be prepared for and supported through the rewards and challenges of caring for aging loved ones.

TARGET: One Million High-Quality Caregiving Jobs

LOCAL MODEL: Healthcare Career Pathway

STRATEGIES:

- A. Family & Friends Caregiving Support
- B. Good Caregiving Jobs Creation
- C. Virtual Care Expansion

Master Plan for Aging: Five Bold Goals for 2030

GOAL FIVE: Affording Aging

We will have economic security for as long as we live.

TARGET: Close the Equity Gap in and Increase Elder Economic Sufficiency

LOCAL MODEL: [San Francisco's Project Homekey and CV19 Meals Expansion](#)

STRATEGIES:

- A. End Homelessness for Older Adults
- B. Income Security as We Age
- C. Protection from Poverty & Hunger

THE MPA LOCAL PLAYBOOK

Seven Plays to Build Communities for All Ages

- PLAY ONE: Engage Your Local Leaders

The MPA Local Playbook: Take Action to Build a California for All Ages

The Master Plan for Aging Playbook is designed to assist state and local government, communities, and private and philanthropic organizations in building environments that promote an age-friendly and disability-friendly California.

Download the [MPA Local Playbook](#) and explore resources below.

★ Play One: Use the Governor's Blueprint to Engage Your Local Leaders

Collaborative, and cross-sector, partnerships are the key to implementing successful projects, policies, and initiatives. It is important to get the right leaders at the table. Local government, community planners, aging and disability advocates, and subject matter experts are all important players. The list below will help you identify your local and regional leaders in community development and the aging and disability fields.

[+ Local Government](#)

[+ Health, Aging, and Disability Leaders](#)

[+ International and National Organizations with Local Chapters](#)

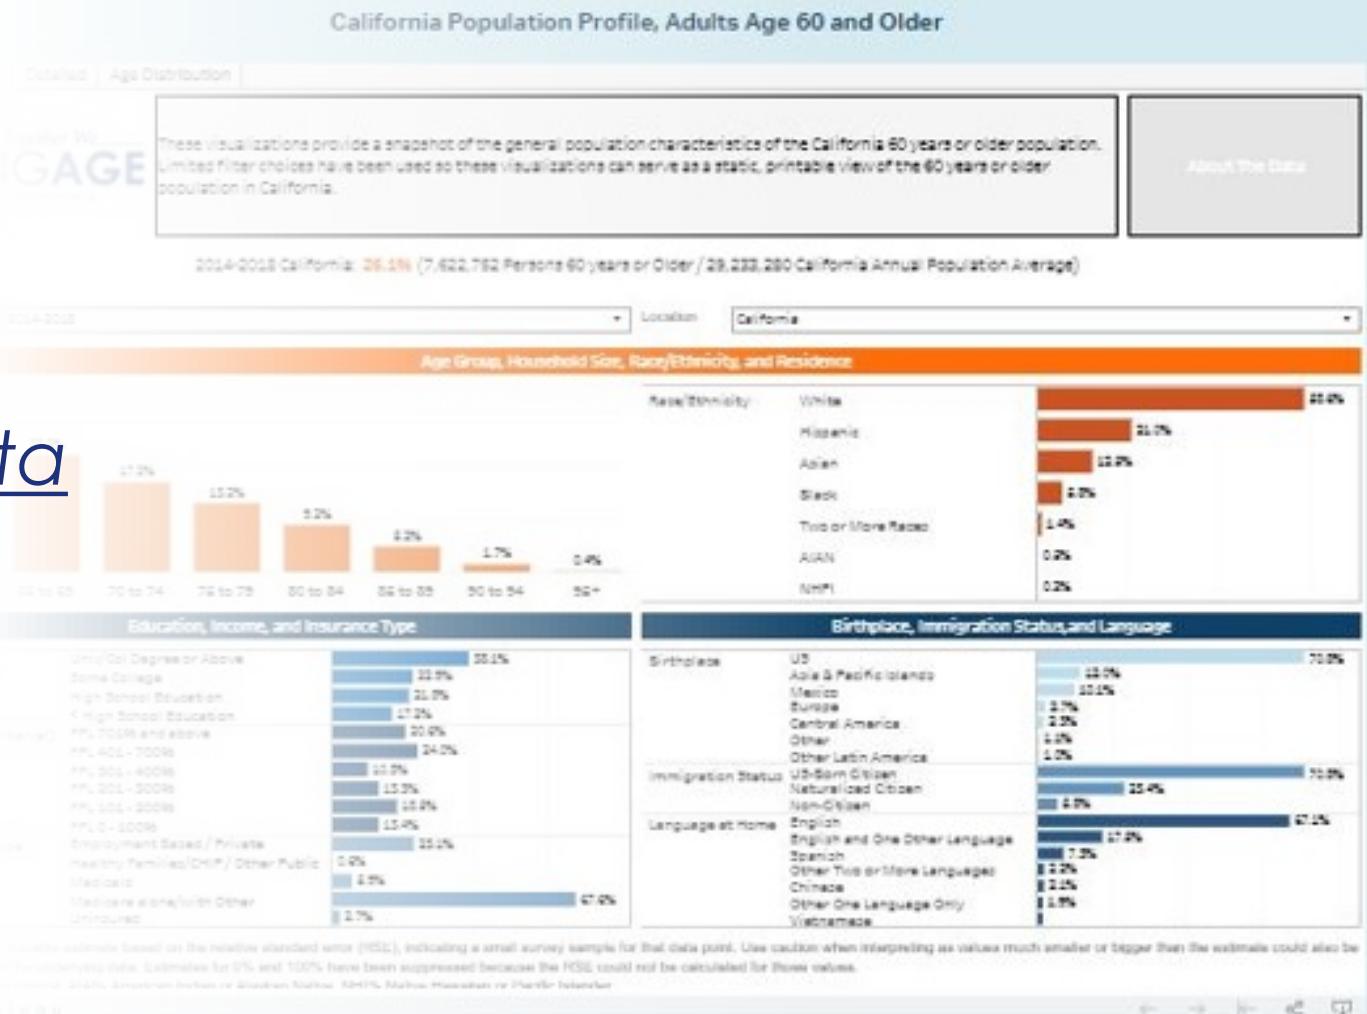

[+ Universities & Colleges with Gerontology & Geriatric Research](#)

[+ Aging-Focused Philanthropy Organizations](#)

MEASURING PROGRESS

The MPA Data Dashboard for Aging

Visit the **Data Dashboard for Aging** to follow the MPA's progress over the next ten years, as well as to explore aging and disability demographics, including data at the local level.

Master Plan for Aging: Next Steps

2021-2022 Initiatives

Ten Cabinet Agencies + strong partnership with local leaders, private sector, federal government, and all stakeholders, will launch over **100 initiatives within the first two years.** [View Jan – June 2021 Progress Report.](#)

Implementing Master Plan for Aging in California Together (IMPACT) Committee will advise on the administration and implementation of the MPA.

Existing and new stakeholder committees will continue to drive policy and program on priorities including **Long Term Services and Supports (Disability & Aging Livable Communities Committee), Equity in Aging Committee, and Elder Justice Coordinating Council,** and several other workgroups and ad hoc committees

In-Home Supportive Services Career Pathways

California Department of Social Services

What We Are Covering

- Overview of In-Home Supportive Services (IHSS) Career Pathways
- Objectives of the Program
- Identified Pathways
- Provider Payment
- Implementation Timeline
- Next Steps & Stakeholder Activities

IHSS Career Pathways

Section 24 of Senate Bill 172 added Welfare & Institutions Code Section 12316.1 which mandated the California Department of Social Services (CDSS) administer the Career Pathways Program for providers of IHSS and Waiver Personal Care Services (WPCS) to increase the quality of care, recruitment and retention of providers for recipients and to provide training opportunities for career advancement in the home care and health care industries.

IHSS and WPCS providers who have completed provider enrollment are eligible to participate in the Career Pathways Program.

Training can only be provided by counties, Public Authorities, a nonprofit entity that is tax exempt pursuant to Section 501(c)(3) of the Internal Revenue Code, or a Taft-Hartley Labor Management Partnership.

IHSS Career Pathways Objectives

The goals of the IHSS Career pathways include, but are not limited to, all the following:

- Promotion of recipient self-determination principles.
- Dignity in providing and receiving care through meaningful collaboration between the recipient and provider.
- Advancement of health and service equity, including the quality of care, care outcomes, and life.
- Promotion of a culturally and linguistically competent workforce to serve the growing racial, ethnic, and linguistic diversity of an aging population.
- Increase in both provider employment retention and recruitment of new providers to maintain a stable workforce for recipients.

The Pathways

The statute identified 5 separate pathways available to program participants broken into two categories:

General Pathways

- General Health & Safety
- Adult Education

Specialized Skills Pathways

- Cognitive Impairments and Behavioral Health
- Complex Physical Care Needs
- Transition to home and community-based living from out-of-home care or homelessness

Provider Payments

Providers will receive payment for attending training and will be offered additional incentive payments for meeting certain criteria.

- Training Attendance – providers will be paid for the hours they spend attending training.
- Incentive Payments –
 - Completing 15 hours of training in a particular pathway
 - Completing 15 hours of training in a Specialized Skills Pathway and subsequently going to work for a new recipient that needs that type of specialized care, and providing 40 authorized hours of care in the first month of service
 - Completing 15 hours of training in a Specialized Skills Pathway and subsequently going to work for a new recipient that needs that type of specialized care, and providing 40 authorized hours of care per month for at least 6 months

Implementation

IHSS Career Pathways is currently in planning stage.

Currently developing a phased roll out plan, with a tentative begin date of September 1, 2022. Implementation will depend on the following:

- Competitive bid process
- Contracting with and Onboarding Training Vendors
- Automation

Next Steps

Over the next few months CDSS is planning a very robust stakeholder process that includes:

- Listening sessions to obtain feedback and suggestions from recipients and providers, stakeholders and advocates
- Workgroups with training vendors, counties, public authorities, labor organizations, advocates, etc.

To be included in our distribution list, please send an email to:

Caregiving that Works: Strategy A

Tiffany Huyenh-Cho
Senior Staff Attorney

JUSTICE IN AGING

FIGHTING SENIOR POVERTY THROUGH LAW

Strategy A Initiatives

Initiative 107: Promote current state paid family leave benefits to older Californians, people with disabilities

Initiative 108: Assess participation in state paid family leave, including recent legislation to expand equity, for equity, including LGBTQ, race, income, gender

Initiative 109: Develop options to include family caregivers in home and community assessments.

Initiative 110: Consistent with CalAIM, expand respite care for family caregivers.

Initiative 107

- SB 95 extended COVID-19 supplemental paid sick leave and expanded definition of a covered worker
 - Unable to work or telework due to certain reasons related to COVID-19
 - Expanded definition to include In-Home-Supportive Services (IHSS) caregivers and personal waiver care service providers
 - Paid up to 80 hours of supplemental paid sick leave through retroactive to January 1, 2021 to Sept. 30, 2021

Initiative 109

- Caregiver Resource Centers: budget includes \$10 million in FY 2022 to 2023 and ongoing to support Caregiver Resource Centers
 - Services: supports family caregivers with information & referral, respite care, short-term counseling, care planning and consultation, support groups etc
- Enhanced Care Management (ECM) under CalAIM
 - Comprehensive, whole person care case management to certain high-need, high-cost Medi-Cal managed care enrollees
 - ECM “populations of focus” include high utilizers in 2022; in 2023: individuals transitioning to the community from nursing facilities & those eligible for long-term care and at risk of institutionalization
 - Caregivers included in comprehensive assessment and care management plans, including identifying needed support services for family member and caregivers to manage the enrollee’s medical conditions.

Initiative 109

- Dementia Aware and Geriatric/Dementia Continuing Education*
 - screening older adults for Alzheimer's and related dementias for early detection and timely diagnosis; and connecting individuals and families to community resources
 - \$25 million
- Alzheimer's Day Care and Resource Centers*
 - Expand dementia-capable services at licensed Adult Day Programs (ADP) and Adult Day Health Care (ADHC) centers/Community-Based Adult Day Services (CBAS), including caregiver support services
 - \$5 million
- Coordinated Family Support Service*
 - improve equity for adults who live with their family by improving individual supports provided at home. Proposal to pilot a new service for families similar to supported living services provided outside the family home
 - \$41.7 million

*Department of Health Care Services (DHCS) HCBS Spending Plan still pending federal CMS approval.

Initiative 110

- Medi-Cal Asset Limit Increase for Aged and Disabled Medi-Cal, Medically Needy with a Share of Cost, long-term care, and Medicare Savings Programs.
 - July 2022: \$130,000/individual & \$65,000/addtl family member
 - July 2024, asset test eliminated
- Older Adult Expansion of Medi-Cal
 - Expands eligibility to full-scope Medi-Cal to anyone age 50 or older, regardless of immigration status, who satisfy Medi-Cal's other applicant criteria including income, residency, and asset criteria.
 - Full-scope Medi-Cal includes home and community based services, such as In-Home-Supportive Services (IHSS) and HCBS waivers, like Multipurpose Senior Services Program (MSSP)
 - May 1, 2022

Initiative 110

- Full-scope Medi-Cal expands the population of eligible enrollees, including eligibility for IHSS (and paid family caregivers) and respite services via HCBS Waiver programs
- HCBS Waivers with respite benefits:
 - Multipurpose Senior Services Program (MSSP)
 - Home and Community-Based Alternatives Waiver (HCBA)
 - Home and Community-Based Services for the Developmentally Disabled

Initiative 110

- Under CalAIM, Community Supports include respite services
- Community Supports are optional, HCBS-like services Medi-Cal managed care plans may offer in-lieu of other Medi-Cal covered services
- Starting 2022, three plans elected to offer Respite Services
 - Aetna (*Sacramento & San Diego*)
 - Contra Costa Health Plan (CCHP) (*Contra Costa*)
 - Partnership Health Plan (*Del Norte, Siskiyou, Modoc, Shasta, Lassen, Trinity, Humboldt, Mendocino, Sonoma, Lake, Marin, Yolo, Napa and Solano*)

Housing for Us All – Planning Together as Our Communities Get Older

**Master Plan for Aging
Santa Clara County Town Hall**

Mathew Reed – Director of Policy
mathew@svathome.org
November 3, 2021

It isn't really a secret – A broad range of housing options that people can afford -- But it isn't easy and will take planning

“Californians need accessible, affordable, and integrated multi-generational housing options. It is critical to promoting independence and allows people to age successfully in their existing communities. That is why, at AARP we believe a livable community is one that contains a range of housing options. This ensures that residents of all ages, backgrounds, income levels, and ability levels can find housing that meets their needs.”

[*The AARP CA Listening Report: Rebuilding the Social Compact on Housing for All Californians. January, 2021*](#)

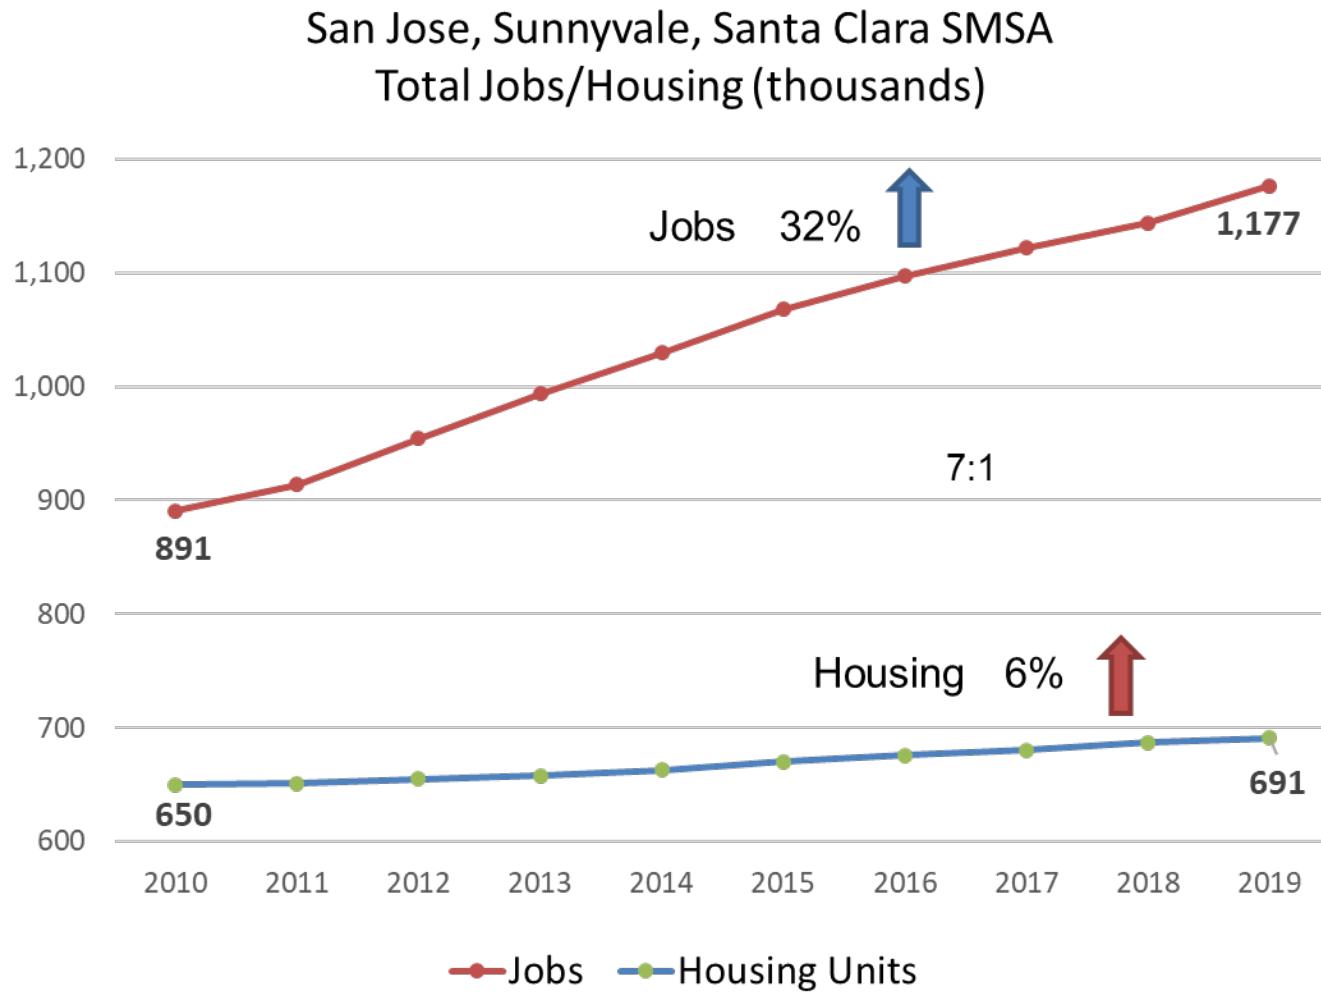

Housing: A Shared Crisis

October 13, 2021

ADDING WAY MORE JOBS THAN HOUSING

Source: US Bureau of Labor Statistics, CA Department of Finance

Home values up over 200%, Rent over 75%

SCC Association of Realtors - Q2 - 2021

The Housing Market is Broken

- Annual income to own a Median Priced Single-Family Home is over **\$260,000** (Median Income is ~ \$140,000)
- Annual income to rent a Two-Bedroom Apartment is over **\$115,000**
- Average Elementary School Teacher Salary **\$92,000**
- Average Healthcare Support Professional Salary **\$40,000**
- **Over three-quarters** of households with incomes under \$100,000 are rent burdened, with **over half** paying more than 50% of their income for rent
- For every **ten** new homes that are built we build only **one** that is affordable to lower income households

Social and Economic Stability is Under Strain

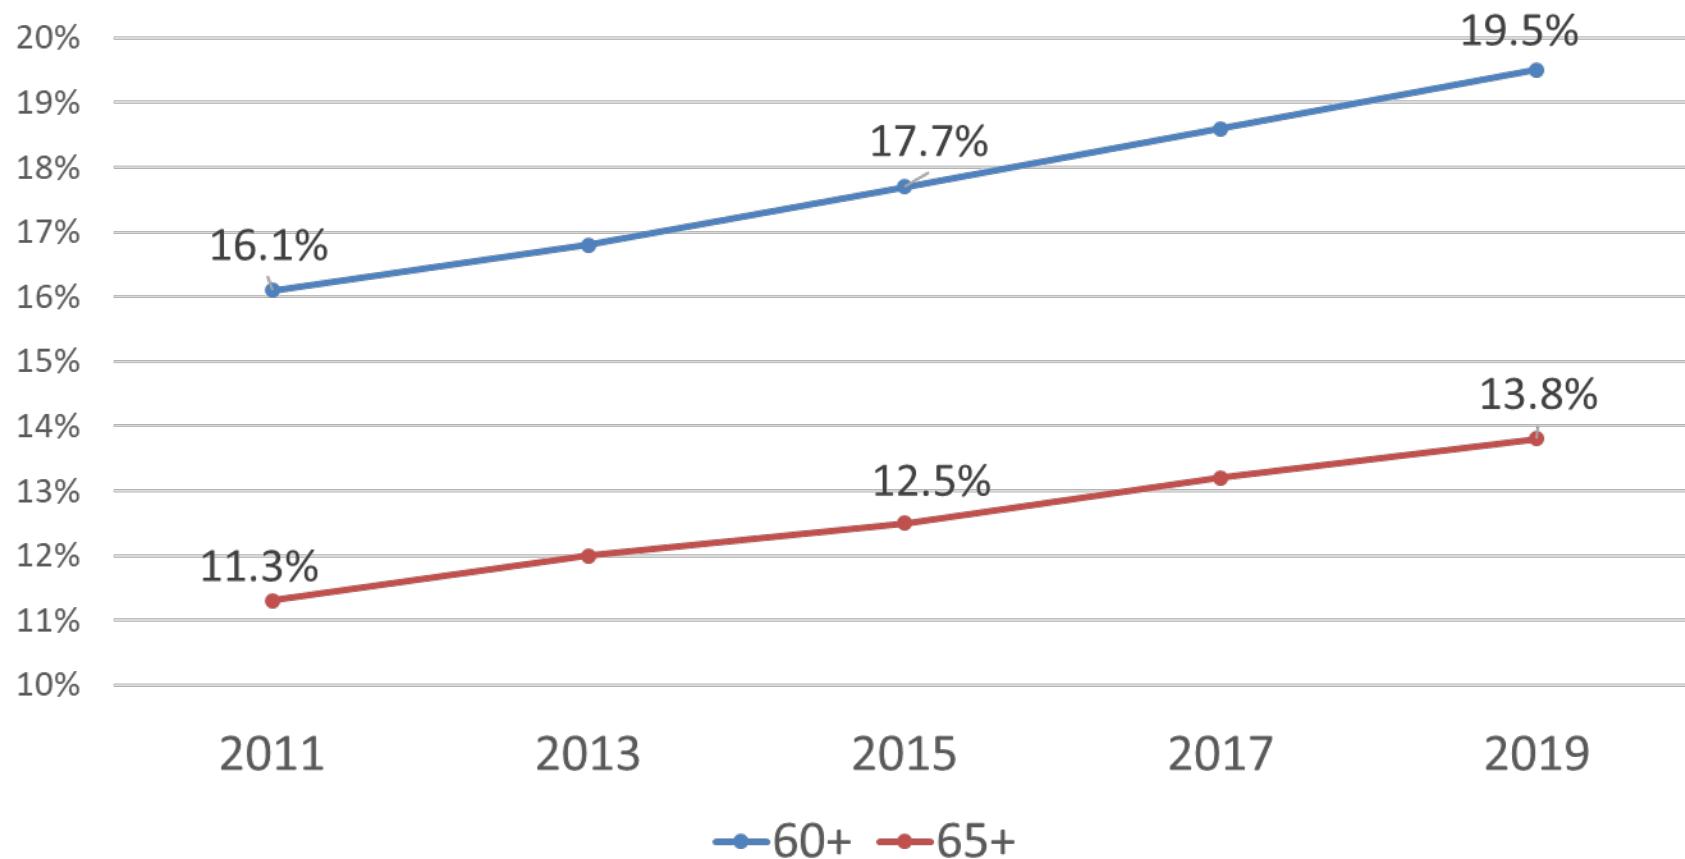

- We have the highest medium income in the country, but suffer from extreme housing costs and tremendous income/wealth inequality
- Workers at the foundation of the local economy struggle to live in Santa Clara County
- Adults who grew up here are having to move away to afford a home for their children
- We are interdependent and struggling to hold together
- Our shared future requires that we do better

Older Residents and Housing

Seniors' Percent of Population (Santa Clara County)

Now Familiar – Forecast “1 in 4”

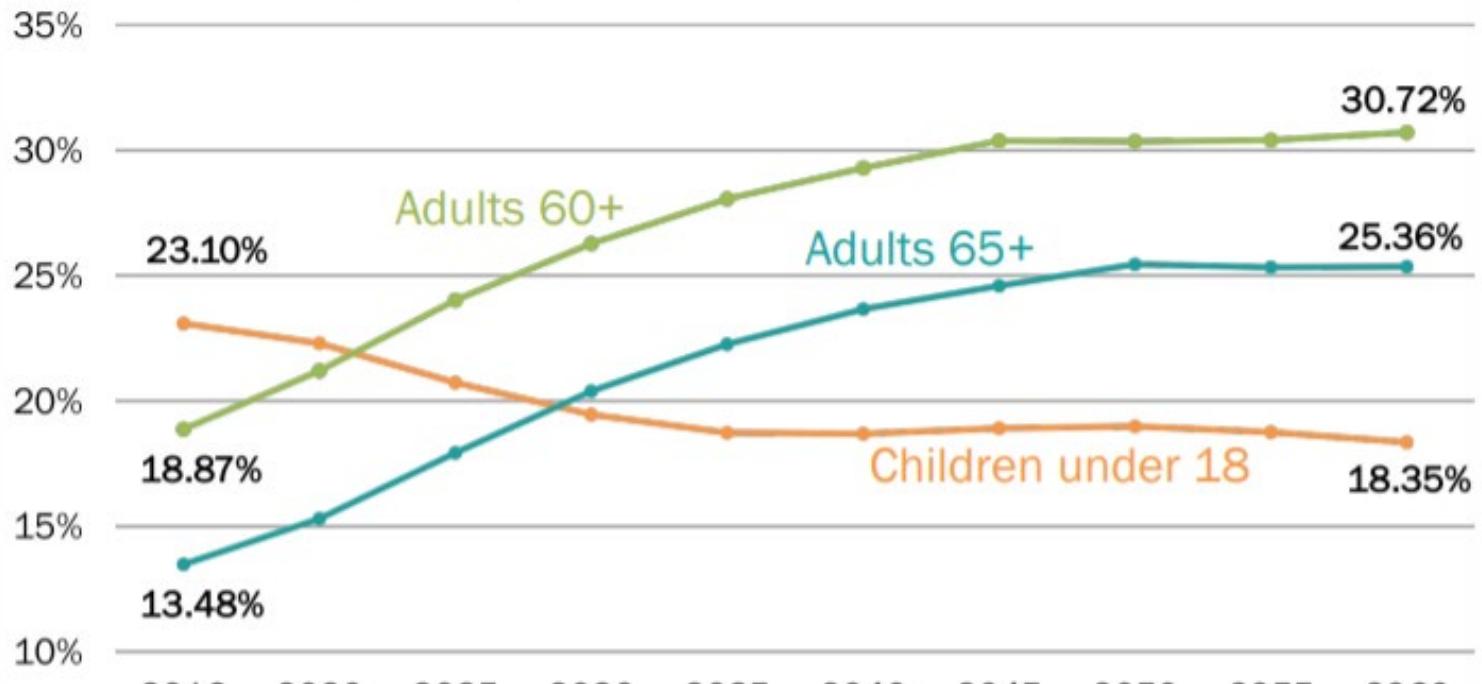

Older Adults Will Soon Outnumber Children in Santa Clara County

March 2019

Department of
Aging and Adult Services

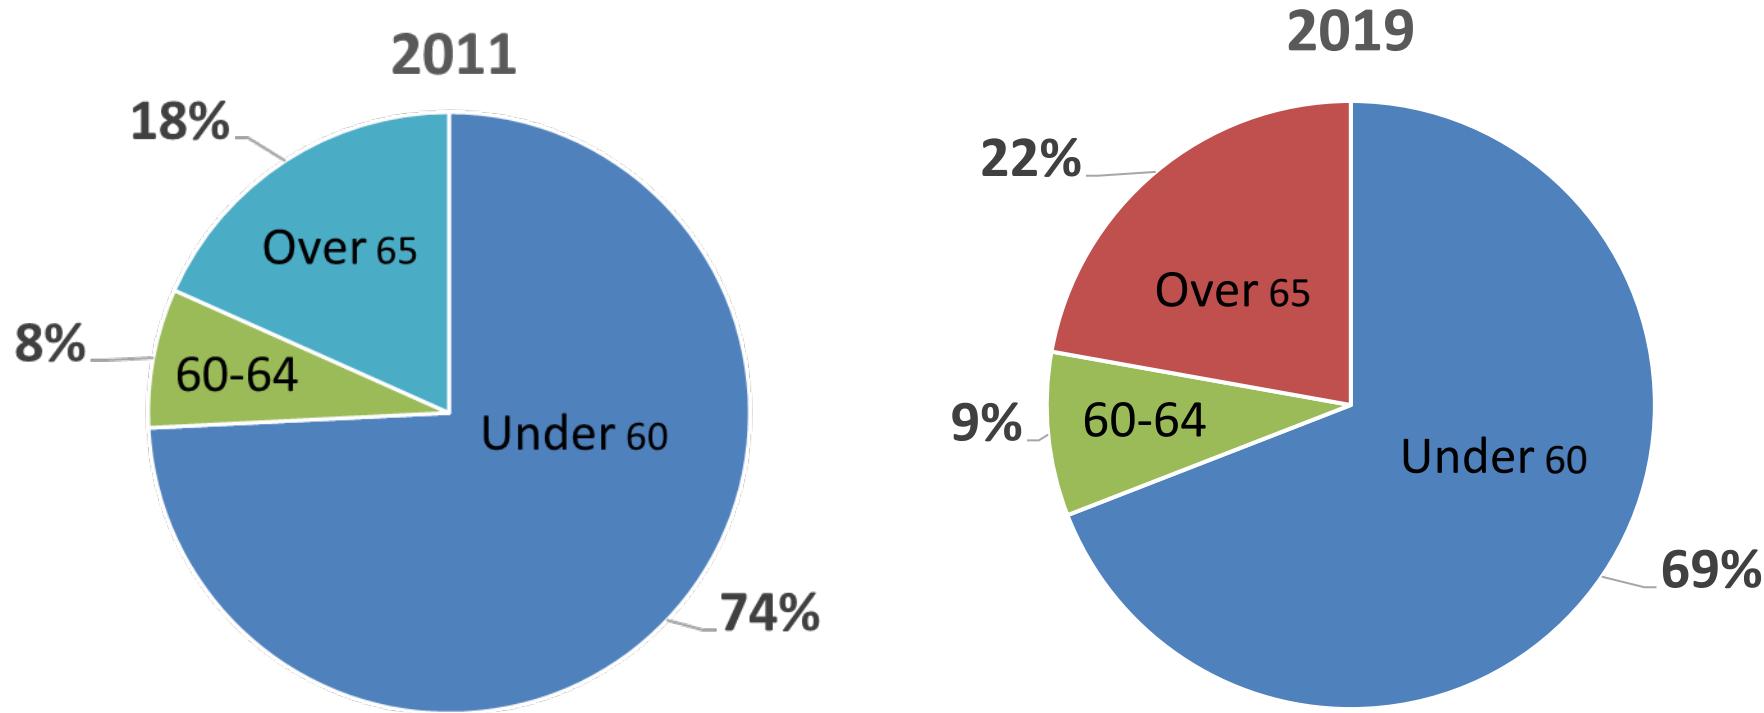

Projected Population Growth in Santa Clara County

CA Department of Finance P-1 State Population Projections (2010-2060) <http://www.dof.ca.gov/Forecasting/Demographics/projections/>

Age of Head of Household

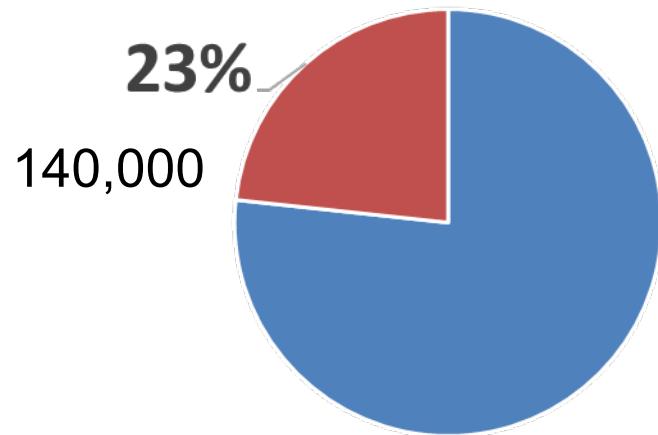

32,000 more households headed by someone over 65

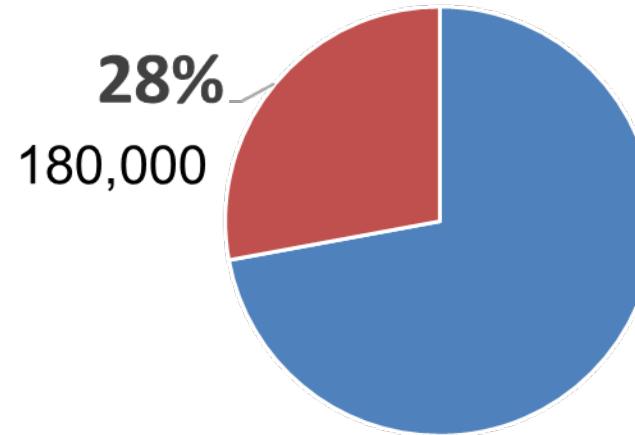

Households with at least one person over 65

2011

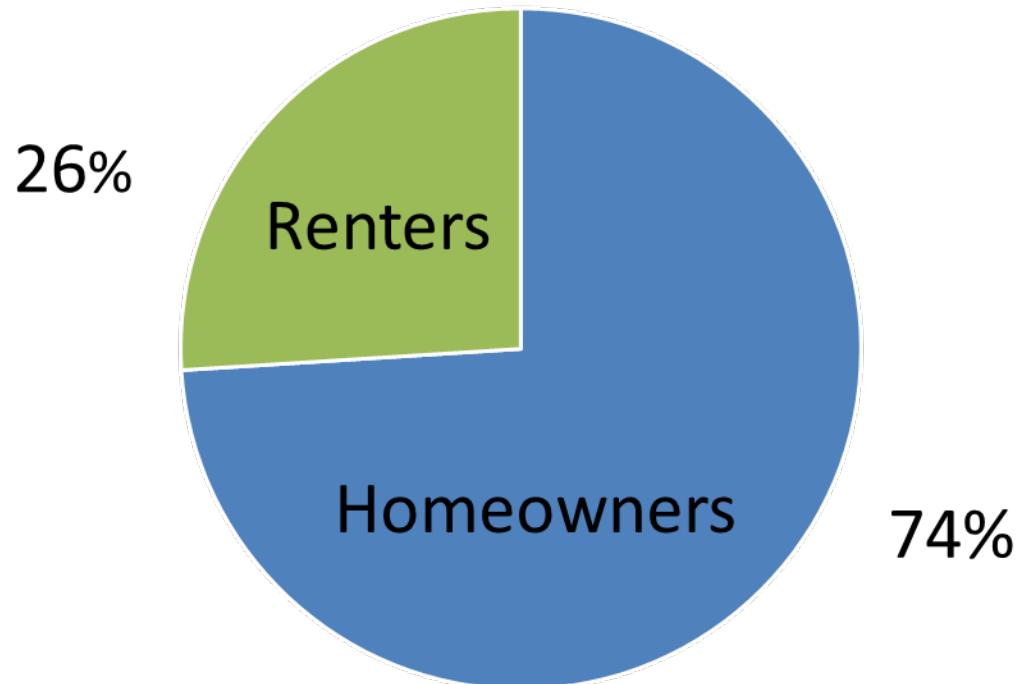

2019

52,000 lived with their own grandchildren,
and 18% reported being responsible for
them

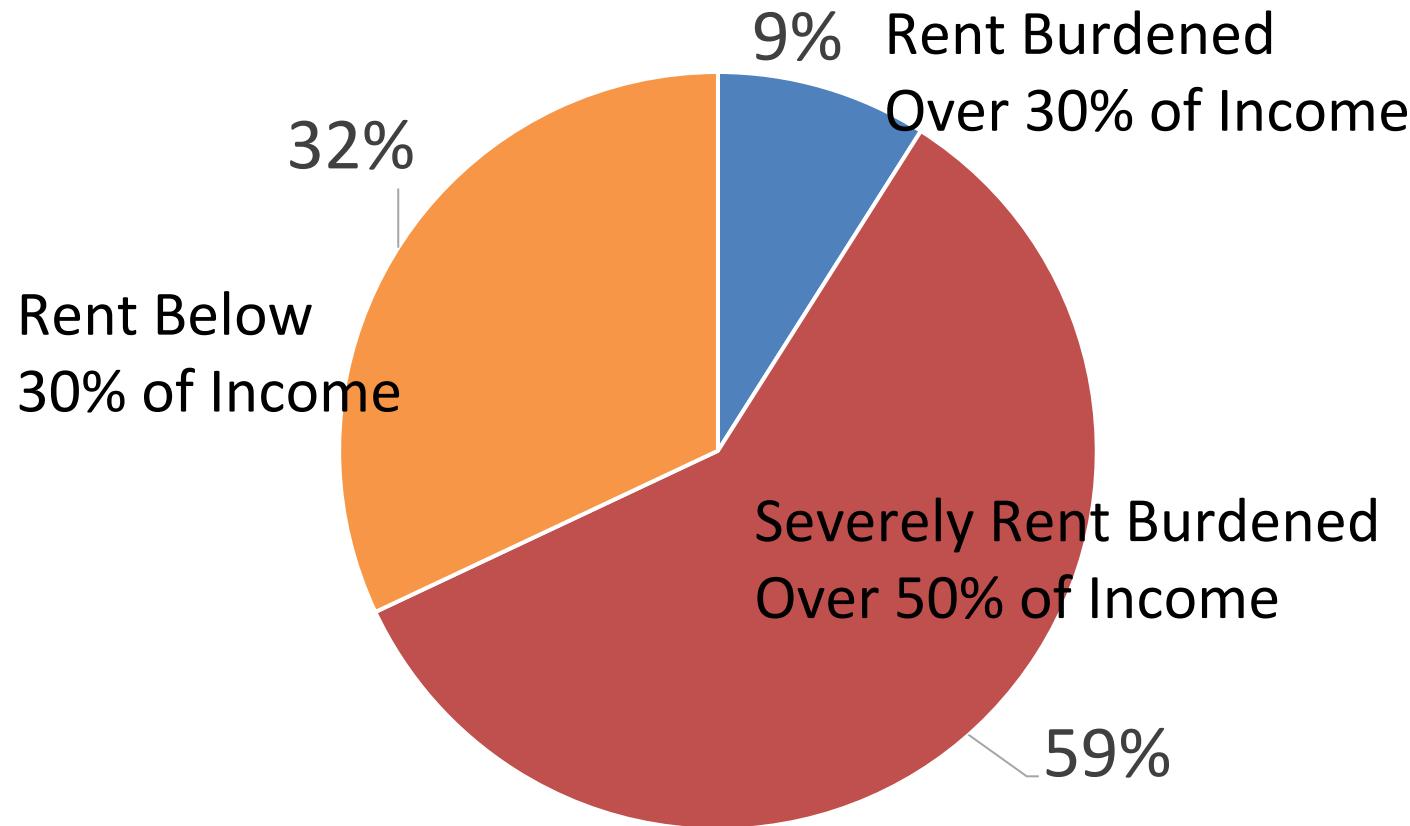

Household Heads Over 65

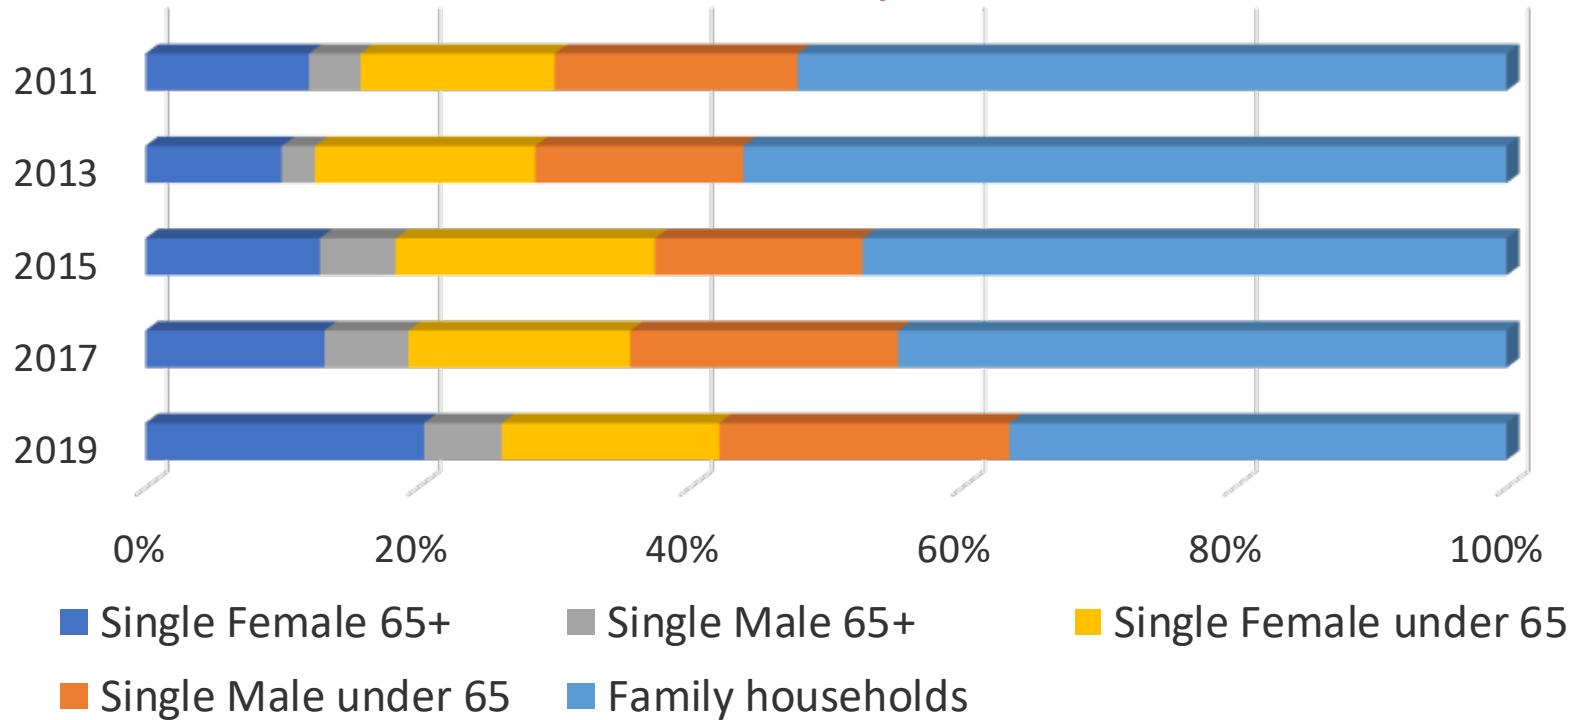

This is pretty consistent across time

Renter Households Over 65

Households With Income Below the Poverty Rate

Over 20% of the 40,000 households with incomes below the federal poverty line in 2019 were women over the age of 65 living alone

Homeless Census – Point in Time Count

Age Group	2015 (6,556)	2017 (7,394)	2019 (9,706)
Less than 18 Yrs	1%	1%	1%
18-24	12%	7%	15%
25-30	7%	7%	6%
31-40	20%	16%	16%
41-50	25%	27%	22%
51-60	26%	34%	28%
60 or more Yrs	9%	9%	12%

Applied Survey Research 2019

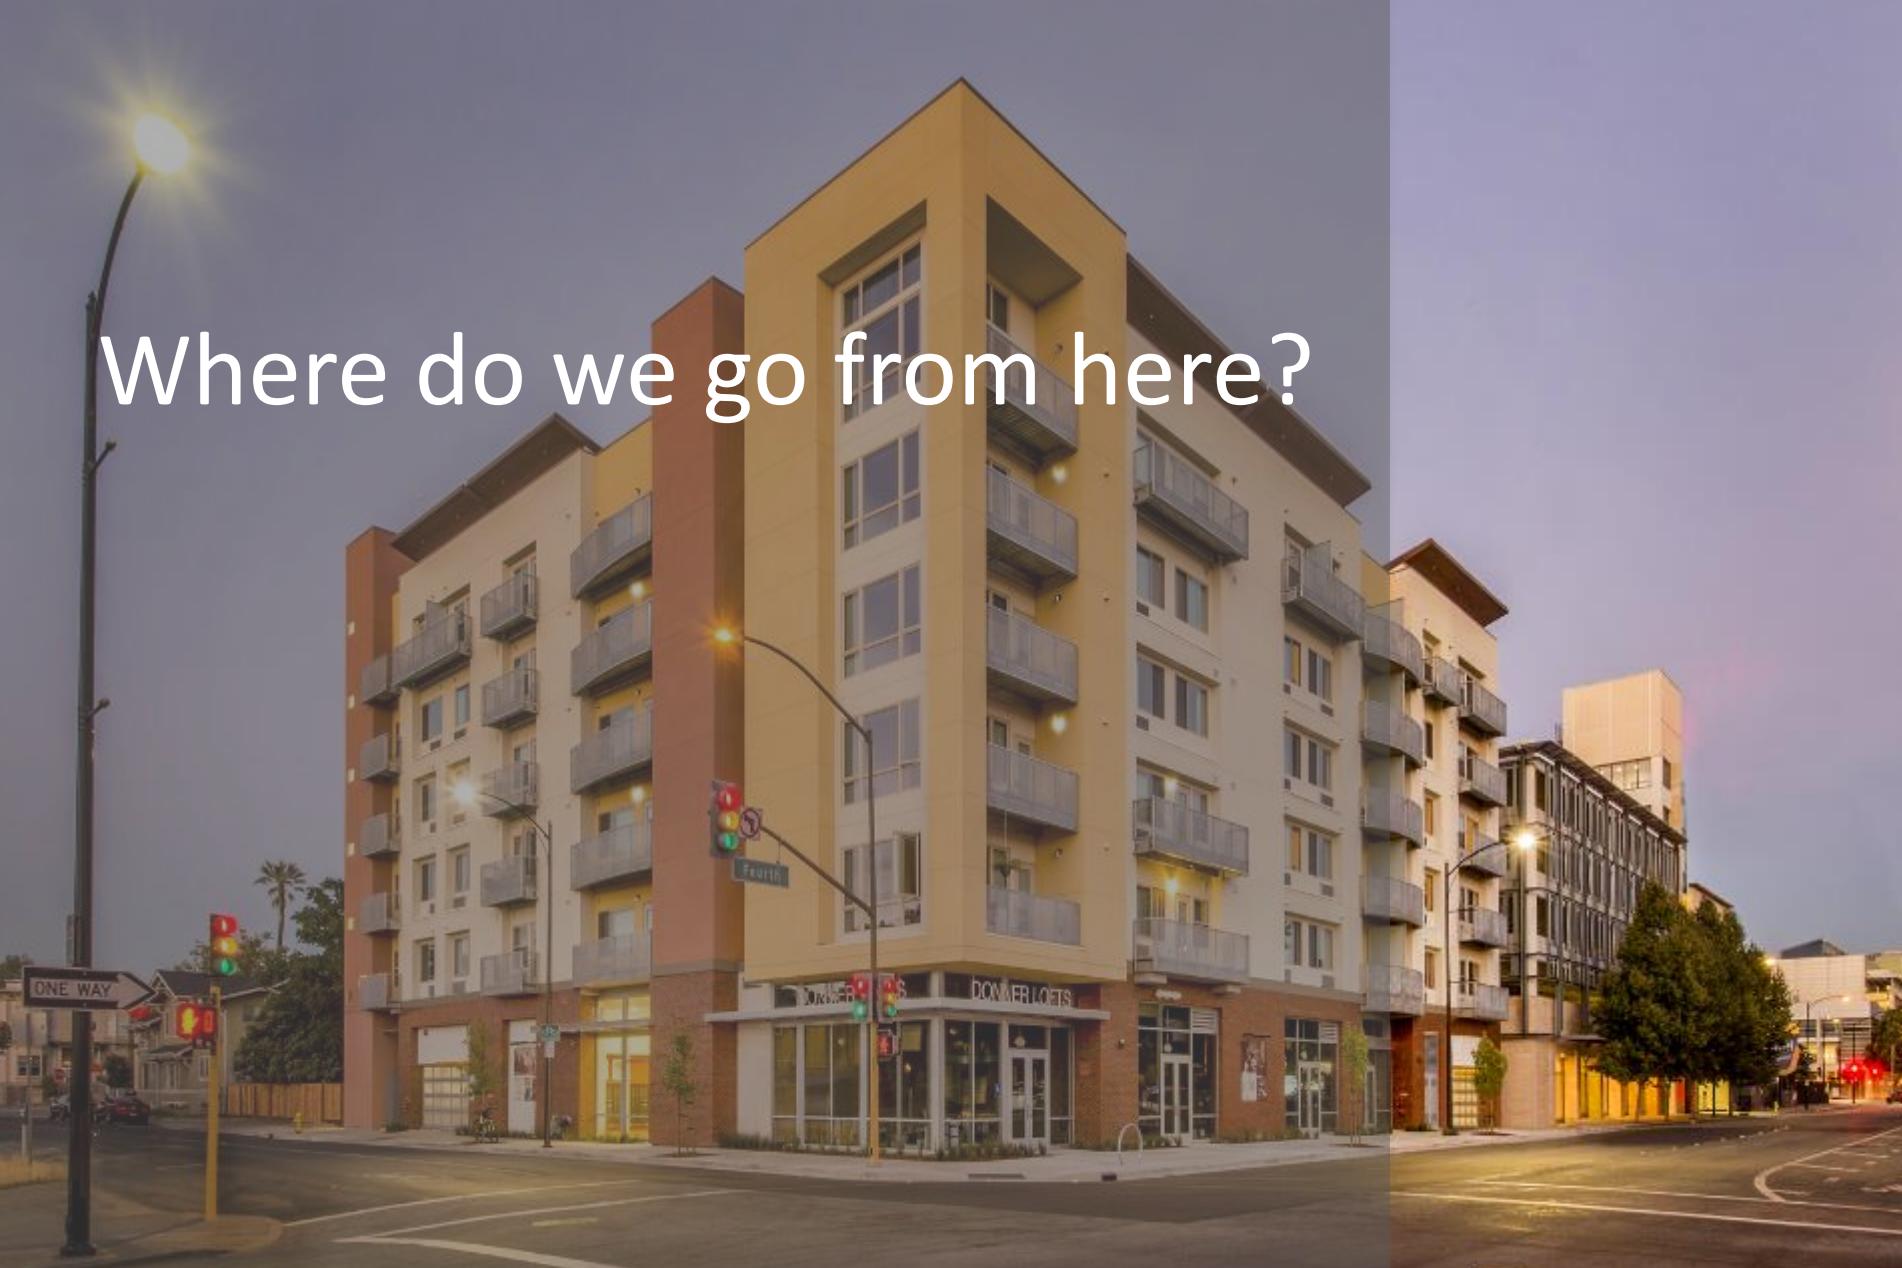

The study estimated that the number of homeless people over 60 years of age increased by 500 between 2017 and 2019, from 665 to 1165.

Housing Crisis for an Aging Community

- As we age as a community we become more interdependent
- More affordable, accessible housing is essential – for everyone
- Lower-income people with fixed incomes, including seniors, are particularly vulnerable
- Housing costs strain family and social networks, and care workers, essential to sustained independent and active lives
- **We grew as a suburb, but we are becoming more urban – which means we must embrace change**

Where do we go from here?

Rebuilding the Social Compact on Housing for All (This will require changes we haven't fully embraced!)

Functional communities will include a diversity of accessible housing opportunities people can afford. This will require:

- Support for increased residential density both within neighborhoods and in increasingly urban areas in our cities and towns
- Support for affordable housing development within our communities
- Recognizing our interdependence

Planning Differently for Our Shared Future

We need housing options for the second stage in our lives. Planning to grow, and age in ways that are more responsive to all of our needs – more concentrated, complete, opportunity-rich, communities that are better integrated and more walkable.

Accessible jobs, schools, groceries, restaurants, parks, health care - good places to be younger and good places to be older.

We already have some structures in place that embrace this change

Seniors' Agenda - Age-Friendly Cities

An Age-friendly City is an inclusive and accessible urban environment that promotes active aging. Response to the growing demographic of older people throughout the world and the growing urbanization of the population.

Master Plan for Aging --

Older adults, like people of all ages, need housing options that meet changing needs across the decades. Housing that allows for different household sizes, with accessible transportation options, welcoming parks and public spaces, and strong climate and disaster readiness, are foundational to well-being and continued engagement in civic, economic, and social life.

AARP – “Rebuilding the Social Compact on Housing for All Californians” and Policybook

Livable community is one that contains a range of housing options. This ensures that residents of all ages, backgrounds, income levels, and ability levels can find housing that meets their needs

We are making some progress

Resources for Affordable Housing

- Measure A – County
- Measure E – SJ
- \$20 billion from State and Recovery funds
 - Major Affordable Housing and Homeless
 - Direct integration of housing with health provision, ex.
 - Medi-Cal Managed Care incentives – Homeless and Prevention
 - Housing and Disability Advocacy Program

We are making some progress

- Policy Changes at State
 - Accessory Dwelling Unit (ADU)
 - SB 9 – 2-4 Units
 - SB 10 – Incentives for modest density
 - Streamlining bills to break down local barriers
 - Housing is central to Master Plan for Aging
 - Home and Community Based Service
 - Supportive Housing
 - **Planning – Housing – Strategy A, Initiative 5**

Housing Element Updates – Planning for Growth Every Jurisdiction (Tools only work when we use them)

Requires targeted community outreach to seniors

Analysis of needs, program or policy options and resources to address the need

Where will affordable housing be built to facilitate active and independent aging?

Will there be policies that plan for new integration of In Home and Supportive Services?

Way more teeth, but only if we raise the issues and push for solutions!

Contact Alison Cingolani (alison@svathome.org) for educational presentations, engagement tools and how to get involved.
